BTW, I wanted to apologize for not being able to help you with the handouts you were looking for. I was out of the office on a little vacation and then the woman who has the key and access to the room with the materials was out on vacation, so I wasn't able to get a hold of them. I hope it all worked out regardless.

Yes I would be very interested in all of it

Can you mail it?

Hi Ana.

For the most part I was just going to bring tchotchke kid-friendly environmental stuff (stickers, activity guides, etc. as suggested by Chris the organizer), however, the one Urban Waters handout I was going to bring is the 2-page factsheet that we developed for the Passaic. Here is the link to the final if you'd like to use this.

<http://www.urbanwaters.gov/pdf/UWFPPassaicRiverBackgrounder.pdf>

If you're interested in the other stuff, I'm not quite sure how I would get it to you, but I could look into that.

Let me know.

Thanks,

Liz

that's a bummer you folks can't be a part of the opening - if you have some materials from EPA that you think would be great or that you were going to display or bring - you can share them with us because we will be setting up an urban waters table

thanks!

Hi Ana.

Thanks for forwarding this around. As it turns out, unfortunately, neither EPA nor the Corps is able to participate in the August 3rd event, although we were planning for it and hoping to share the news about the Urban Waters selection. It seems that there are a lot more restrictions regarding obtaining authorization to attend events outside of work time due to the sequestration. I just found out late last week so I let Damon know then. I'm sure it'll be a great event, and I hope the weather is a bit cooler so you get a great turnout!

Thanks and take care,

Liz

Hello everyone

Hope the heat isn't overwhelming you all too much.

I just wanted to share with all of you and also with all the CAG members the invitation to the new phase of Riverfront Park that's opening on August 3rd.

I know some of you from EPA are scheduled to be there - but wanted to make sure we shared the invite widely!

Attached is the invitation and below is the article from the NYT that came out in yesterday's paper.

<http://www.nytimes.com/2013/07/21/arts/design/newark-passaic-waterfront.html?pagewanted=all>

Doug - can you share this with the CAG list? Look forward to seeing you all soon!

Best regards,

Ana
